

Exhibit Categories

1. Materials

- 1.1 Paper
- 1.2 Film
- 1.3 Foil
- 1.4 Nonwovens
- 1.5 Textiles
- 1.6 Adhesives, resins
- 1.7 Silicones
- 1.8 Coatings
- 1.9 Inks
- 1.10 Recyclable materials
- 1.11 Materials, other

2. Coating / Laminating

- 2.1 Vacuum coating / metallizing
- 2.2 Extrusion coating
- 2.3 Siliconising
- 2.4 Lacquering
- 2.5 Hotmelt, solvent / solventless
- 2.6 Cold glue, water-based
- 2.7 Laminating
- 2.8 Adhesive application systems / coating heads
- 2.9 Pilot lines, lab coating
- 2.10 Coating / laminating, general

3. Drying / Curing

- 3.1 Hot air / UV / IR
- 3.2 Moisturising
- 3.3 Drying / curing, general

4. (Pre-)Treatment

- 4.1 Plasma / corona / flame treaters
- 4.2 Static control / ionization
- 4.3 (Pre-)Treatment, general

5. Flexographic / Rotogravure Printing

- 5.1 Prepress systems
- 5.2 Printing machines
- 5.3 Flexographic / rotogravure printing, general

6. Control, Test & Measurement

- 6.1 Process control (inline measurement)
- 6.2 Test & measurement equipment (offline)
- 6.3 Web guidance
- 6.4 Web tension control
- 6.5 Optical inspection, process control
- 6.6 Defect detection systems
- 6.7 Print inspection systems

6.8 Print image inspection

- 6.9 Laser technology
- 6.10 Non-contact length & speed measurements
- 6.11 Coat weight / thickness measurement
- 6.12 Gas / permeation analysers
- 6.13 Control, test & measurements, general

7. Accessories

- 7.1 Drives / automation
- 7.2 Brakes / clutches
- 7.3 Coating / laminating machine components
- 7.4 Die cutting / embossing perforating machine components
- 7.5 Machine components for dryers
- 7.6 Machine components for slitters
- 7.7 Vacuum machine components
- 7.8 Cleaning systems
- 7.9 Knives / blades
- 7.10 Core chucks / airshafts
- 7.11 Rolls
- 7.12 Sleeves
- 7.13 Reel & roll handling
- 7.14 Handling equipment
- 7.15 Accessories, other

8. Slitting / Rewinding

- 8.1 Core makers
- 8.2 Core cutters
- 8.3 Cross cutters / sheeters
- 8.4 Longitude cutters
- 8.5 Unwinders / rewinders
- 8.6 Slitter rewinders
- 8.7 Splicers / rewinders
- 8.8 Lathe slitters
- 8.9 Doctor machines
- 8.10 Spooling
- 8.11 Slitting / rewinding, general

9. Finishing

- 9.1 Die cutting / perforating
- 9.2 Embossing / hot foil stamping
- 9.3 Packing / packaging machines
- 9.4 Folding / creasing machines
- 9.5 Counting machines
- 9.6 Laser technology
- 9.7 Finishing, general

10. (Semi)Finished Products

- 10.1 Self-adhesive tapes
- 10.2 Films
- 10.3 Labels
- 10.4 Accessories

11. Factory Management

- 11.1 Waste removal / recycling
- 11.2 Waste gas treatment / solvent recovery
- 11.3 Particle removal / moisture control
- 11.4 Humidifiers
- 11.5 Web de-dusting machines
- 11.6 Factory management, general

12. Retrofitting / Machine Upgrades

13. Control of Production Processes

- 13.1 Automation
- 13.2 Digitalization
- 13.3 IT & Software

14. Toll Coating / Converting / Slitting

15. Services, Information & Communication

- 15.1 Service & consulting
- 15.2 Research & development
- 15.3 Trade & technical publications
- 15.4 Associations

16. Special Films

- 16.1 Battery films
- 16.2 Biopolymeric films
- 16.3 High barrier films
- 16.4 Optical films
- 16.5 Weatherable films
- 16.6 Other special films

17. Extrusion

- 17.1 Extrusion lines for blown films
- 17.2 Extrusion lines for flat films
- 17.3 Welding machines
- 17.4 Calender
