

March 2021

ICE Europe, CCE International and InPrint Munich postponed. New dates for collective of converting, paper and print exhibitions to be announced in due course

Mack-Brooks Exhibitions has today announced the postponement of ICE Europe, CCE International and InPrint Munich. The collective of converting, paper and print exhibitions, which was scheduled for 22 – 24 June 2021 at the Munich Trade Fair Centre in Germany, is postponed in light of the ongoing Covid-19 pandemic.

"The current course of the pandemic and the current restrictions in Germany means that there is insufficient planning security for all parties involved. Despite an enhanced health and safety plan in place and the exhibitors' willingness to go ahead with the shows in June, we believe that the most responsible decision at this stage is to postpone", explained Patrick Herman, Event Director of the Converting, Paper and Print Events at Mack-Brooks Exhibitions.

"This situation underlines the importance of our shows for the industry. However, conditions to hold trade fairs have not yet been determined and our hands are tied. With the circumstances unlikely to change in a foreseeable future, we must remain sensible and minimise the economic risk for all participants. To hold the shows at a later date hopefully ensures that the events can continue their critical role in bringing the global converting, paper and print industry together again. Specific dates for the exhibitions will be announced shortly.", concluded Patrick Herman.

The ICE Europe, CCE International and InPrint Munich Events Team will communicate closely with customers and partners over the coming weeks and months. We thank all our exhibitors, partners, suppliers and visitors for their support during this challenging time.

About ICE Europe

ICE Europe, the International Exhibition for Paper, Film & Foil Converting, is the world's leading exhibition for the conversion of flexible, web-based materials, such as paper, film, foil and nonwovens. The show attracts industry experts from a wide range of sectors, including packaging, printing, plastics, textiles and nonwovens, paper, engineering, chemical, medical and pharma, automotive, aviation, food, and electronics.

About CCE International

CCE International is Europe's key event for the corrugated and folding carton industry, covering the entire supply chain in the production and processing of corrugated and carton material. The show addresses technology buyers and users from the corrugated and cartonboard industry and their target markets, such as carton and boxes manufacturers, tubes and cores suppliers, packaging designers, plant managers, technical engineers, and company leaders.

About InPrint Munich

InPrint Munich is Europe's flagship event of the highly successful InPrint brand for the emerging community of printing professionals and manufacturers who want to maximise on new business potential for print applications in the industrial production sector. The exhibition is targeted at high-level trade professionals from the printing industry and from various industry sectors, such as aeronautics and aerospace, packaging and containers printing, architecture and design, automotive, consumer goods manufacturers, medical equipment and many more.
